

What we need from our **CLIENTS** is:

# ANTWON BAKER

... & what we need from our **SYSTEMS** is:

★ his **CURRENT** mental physical social **WELL-BEING**

★ his detailed **HISTORY**

We must **UNDERSTAND** the **IMPACT** of his **PREVIOUS EXPERIENCES**

I just want to get my life together...

I just need some help to get things going again...

It's been harder than I thought it would be...

★ What is he **PASSIONATE** about?

as **points of engagement**

## GATEWAY into an **ACCOUNTABLE CARE COMMUNITY (ACC)**

are there **EXISTING SERVICES** in his **ACC** that will help him turn his life around?

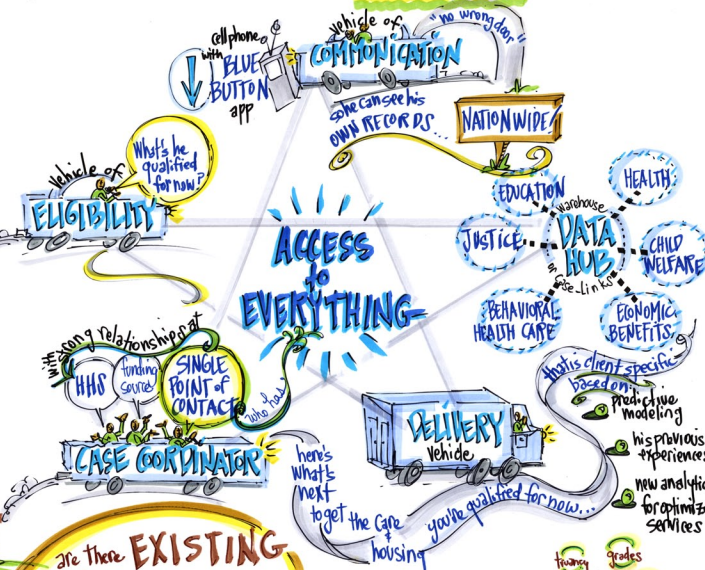

how well does it support **FOSTER KIDS**?

Can we look at **PATTERNS** of his behavior in all the 11 different foster homes?

consider the **RISK FACTORS** ↓ mortality by 65% if no health insurance  
Foster kids have 2x PRSD of substance

do we have an **AGGREGATE** level of **PROCESSING** of all this **INFORMATION** to **ASSESS** our entire **SYSTEM** for all the Antwons in our system?

Can we use **PREDICTIVE ANALYTICS** to **SUPPORT** and **FUND PROGRAMS** that track well with **POSITIVE RESULTS**?

and make it **SPECIFIC** to Antwon?

**PREVENTION** and early intervention rather than only on **REACTION + TREATMENT**

how do we **DEFINE** it?

What is our **CRITERIA** for **SUCCESS**?

... and how do we **MEASURE** it?
